

TFN T700CQ Cable Blowing Machine

Technical Parameters:

1. Applicable optical cable diameter (OD): 6-14mm
2. Applicable tube diameter (outer diameter): 10-40mm
3. Air-blown micro-tube 10/8: 1-3
4. Push speed (push length per minute) 0~120m/min
5. Thrust: 0-700N
6. Main unit rated pressure: 13bar
7. Main unit weight: 28kg
8. Main unit volume: 550*300*330mm
9. Main unit packaging weight: 42kg
10. Main unit packaging volume: 700*400*450mm

Accessories:

1. Main unit: 1 unit
2. Connecting joints for air compressor: 3 units
3. Cable plugs: 3 units
4. Silicone tube scissors: 2 units
5. Oil-gas separator: 1 unit
6. Sealing rings: 8 units
7. Conveyor belt: 2 sets
8. High-pressure air belt: 1 meter
